## **GEN 2.4 LOCATION INDICATORS**

1. Location indicators are used in the aeronautical fixed service to indicate in code form the place name of an aerodrome, communication station, or facility ralated to air navigation. They are used in address, origin and text sections of a message part, and also for identification of the location in a NOTAM.

\* Location indicators which are assigned to locations to which messages can not be addressed over the AFTN.
